

Two great stations, K-LOVE and PILGRIM RADIO (based in Carson City, NV.) use translators to get their signals to us here in this remote part of California. Both provide wonderfully uplifting programming that is good for the whole family. The entire area benefits from their positive and spirited programs and music. We will miss them tremendously if they are replaced by an LPFM broadcaster providing other programming. We need these stations in this remote area, especially on the cold and sometimes dreary winter days and nights. Please keep them on their current translators.

Thank you
Bruce R. McGillivray
